

# MATERIAL SAFETY DATA SHEET

## FOAM'N STONE POLISH

### Section I – Chemical Product and Company Identification

Product Name:

Foam'n Stone Polish

Produced by:

Superior Stone Products, Inc.

8580 Byron Commerce Dr

Byron Center, MI 49315

(800) 493-5111

### Section II – Composition/Information on Ingredients

If present, IARC, NTP and OSHA carcinogens and chemical subject to the reporting requirements of SARA title III Section 313 are identified in this Section.

| <u>Ingredient</u> | <u>CAS#</u> | <u>% (BY VOL)</u> | <u>OSHA PEL</u> | <u>ACGIH TLV</u> |
|-------------------|-------------|-------------------|-----------------|------------------|
| Stone Polish      | Proprietary | 0-95%             | N/A             | N/A              |
| Dimethyl Ether    | 115-10-6    | 0-5%              | 1000ppm         | 1000ppm          |
| Propane           | 74-98-6     | 0-5%              | 1000ppm         | Asphyxiant       |

### Section III – Hazards Identification

**Chronic Effects of Overexposure:** No known applicable information.

**Acute Effects of Overexposure:** Eye and skin irritant.

**Ingestion:** May irritate stomach and intestines.

**Skin:** Can cause skin irritation. Prolonged or repeated contact may dry the skin.

**Inhalation:** May cause irritation to respiratory tract, headache, nausea, fatigue, drowsiness, and impaired coordination.

**Eye:** Can cause eye irritation.

### Section IV – First Aid Measures

**If Swallowed:** If patient is conscious, give two (2) glasses of water. Do not induce vomiting. Get immediate medical attention.

**Skin Contact:** Remove contaminated clothing and laundry before reuse. Wash with soap and water.

**If Inhaled:** Remove to fresh air. If symptoms persist, seek medical attention. If breathing is difficult, administer oxygen.

**Eyes:** Immediately flush with large amounts of water for at least 15 minutes and call a physician.

## **Section V - Fire Fighting Measures**

Flash Point: -156°F

Auto Ignition: N/A

**Hazardous Products of Combustion:** May form carbon dioxide and carbon monoxide.

**Extinguishing Agents:** Dry Chemical, Carbon Dioxide, Foam Or Water Spray

**Special Fire Fighting Procedures:** Water spray may be ineffective. Water may be used to cool containers to prevent pressure build-up and explosion when exposed to extreme heat. If water is used, fog nozzles are preferred. Wear goggles and self-contained breathing apparatus.

**Unusual Fire And Explosion Hazards:** Closed containers may explode from internal pressure build-up when exposed to extreme heat and discharge contents. Liquid content of container will not support combustion. Overexposure to decomposition products may cause a health hazard. Symptoms may not be readily apparent. Obtain medical attention.

## **Section VI - Accidental Release Measures**

**Procedure For Cleanup:** Eliminate all ignition sources. Leaks should be stopped. Spills should be contained and cleaned up immediately. Evacuate unnecessary personnel.

Large spills should be removed by vacuum truck. Smaller spills may be soaked up with compatible absorbent material, which should be placed in closed containers outdoors.

## **Section VII - Handling and Storage**

Keep container closed. Store in a cool place with adequate ventilation. Do not handle or store near an open flame, heat or other sources of ignition.

## **Section VIII - Exposure Controls/Personal Protection**

**Respiratory Protection:** Not normally required. If vapor concentration becomes high, use NIOSH approved respirators.

**Ventilation:** Local ventilation is adequate.

**Protective Gloves:** Solvent resistant gloves should be worn for prolonged or repeated contact.

**Eye Protection:** None under normal use. Chemical safety goggles, plus full face shield when appropriate is recommended.

## **Section IX – Physical and Chemical Properties**

Form: Liquid

Appearance: White foam

Specific Gravity: .97 @ 60°F

Odor: Mild To None

## **Section X - Stability and Reactivity**

**Stability:** Stable - Polymerization will not occur.

**Incompatibility (materials to avoid):** Oxidizing agents.

**Hazardous Decomposition or Combustion:** Carbon monoxide may be formed when burned.

## **Section XI - Toxicological Information**

Please call the non-emergency number under Section I if information is required.

## **Section XII - Ecological Information**

Please call the non-emergency number under Section I if information is required.

## **Section XIII - Disposal Considerations**

See Section VI for special handling or disposal consideration.

## **Section XIV - Regulatory Information**

Transportation Data/DOT

Shipping Description: N/A – Not Regulated.

## **Section XV - Regulatory Information**

N/A

## **Section XVI - Other Information**

Revision Date: 1/01/2004
